

Input

```
#include <iostream>
using namespace std;

int main() {
    int num1, num2;

    // prompt user for input
    cout << "Enter two integers: ";
    cin >> num1 >> num2;

    // compare the two numbers and display the result
    if (num1 > num2) {
        cout << num1 << " is greater than " << num2 << endl;
    } else if (num2 > num1) {
        cout << num2 << " is greater than " << num1 << endl;
    } else {
        cout << "The two numbers are equal." << endl;
    }

    return 0;
}
```
